Product Catalogue

At STR Racing Products we pride ourselves in being able to offer high quality race products at entry level prices.

From the outset STR had ambitions to open up the most recent and modern developments in high-end motorsport to everyone. Only by dedicating time and research have we been able to realise this goal and now we offer a large range of products at the cutting edge of technological advancements, offering not only the highest approvals but also the most competitive pricing to be found anywhere on the market.

Here at STR, we listen to our customers' needs and use this to help us source and refine our product range to offer the most relevant products in demand.

We also take a strong role in product design and we are not afraid to modify longstanding design features to enhance products and by extension, our customers safety. Providing safe and reliable products is of the utmost importance to STR.

Over the years STR has built up a network of international dealers and the brand is now recognised on an international stage as being synonymous with quality and value; attributes we believe in and are committed to fulfilling.

Liquid Filled Gauges

All liquid filled gauges are filled to 80%, the remaining 20% air pocket helps allow for thermal expansion & contraction as ambient temperature changes, thereby maintaining accuracy. To further enhance accuracy: these gauges have a rubber stopper on the top of the gauge which should be removed before use to set the internal pressure to atmospheric pressure.

Mechanical Liquid Filled Gauges

KEY FEATURES

- Competition mechanical liquid filled 2-5/8" gauges with LED backlight
- High accuracy; designed for high performance in all aspects of motorsport
- All necessary hardware included with easy to read instructions

Oil Temperature
Part No. MECH03

Water Temperature
Part No. MECH02

Oil Pressure
Part No. MECH04

Turbo Boost Gauge
Part No. MECH07

Liquid Filled Tyre Pressure Gauges

KEY FEATURES

- 0-30 psi (0-2 BAR) or 0-60 psi (0-4 BAR) scale available
- 0.5 psi or 1 psi increments with vastly superior accuracy
- Display holds pressure until released
- Reduce tyre overpressure by pressing the integral pressure relief valve button
- Glow-in-the-dark dial face is easy to read in total or partial darkness
- Specially designed vent valve to equalise pressure & maintain gauge accuracy
- Integral impact shock absorbing rubber surround with angled or ball chuck
- Designed for motorsport use

2.5" 0-30 psi Angle Chuck

Part No. 2.5TPG_ANGLE_0-30

2.5" 0-30 psi Ball Chuck

Part No. 2.5TPG_BALL_0-30

Part No. 3TPG_ANGLE_0-60

4" 0-60 psi Angle Chuck
Part No. 3TPG_ANGLE_0-60

Switch Panels

Red or Rubber Button Ignition Switch with Flip Switch(es)

KEY FEATURES

- Aircraft style flip switch with LED light
- Red protective cover on the flip switch
- Red LED or Rubber covered push button
- Carbon fibre style lacquered backing
- Flip switch(es) rated to 20A , +12V D.C.
- Push button rated to 50A , +12V D.C.
- Dimensions: 95mm/125mm/150mm x 66mm x 3mm
- Pre-drilled for 4 hole mounting
- Easy to connect to your vehicle, wiring diagram included
- Bright red 'on' light, can alternatively be used as oil pressure warning light
- Ideal for motorsport, marine, industrial or road going vehicle use (UK road legal)
- Plastic cover to protect switch in harsh environments

Red Push Button with Flip Switch

Part No. SPA_CB

Red Push Button with 2 Flip Switches

Part No. SPA1_CB

Red Push Button with 3 Flip Switches

Part No. SPA2_CB

Rubber Push Button with Flip Switch

Part No. SPAR_CB

Rubber Push Button with 2 Flip Switches

Part No. SPAR1_CB

Rubber Push Button with 3 Flip Switches

Part No. SPAR2_CB

Red Button Ignition Switch with Removable Key

KEY FEATURES

- Removable ignition key - improves safety & security
- Rubber cover to protect port when key is removed
- Key switch is rated to 100A, +12V D.C.
- Dimensions: 110mm x 70mm x 3mm

Ignition Switch with Key

Part No. SPB_CB

Red Push Button

KEY FEATURES

- Can be connected via a ring crimp connector
- Splash proof switch can be used in harsh environments
- Push button rated to 50A, +12V D.C.

Red Push Start Button
Part No. PBA

(Deluxe) Rubber Push Button

KEY FEATURES

- Easy to connect to your vehicle
- Splash proof switch can be used in harsh environments
- Push button rated to 50A, +12V D.C.

Rubber Push Start Button
Part No. PB1

Deluxe Rubber Push Start Button
Part No. PB2

Adult Race Suits

Single Layer "Oval Start" Race Suit - SFI 3-2A/1 Approved

KEY FEATURES

- Ideal for oval racing
- SFI approved to SFI 3-2 A/1 standard with approval labels
- High quality single layer, lightweight overalls
- Fire-retardant (Proban treated)
- Velcro waist strap
- Arm & ankle cuffs for comfort

 **Red & Black**
Part No. OS_RDCK

Underwear

Flame-retardant underwear is essential for providing the last line of defence in a fire. The extra layer of flame retardant material is an item that no driver should ever have to use, but if you need it, you will be glad you have it. The soft knit is hypoallergenic and comfortable on the skin.

Nomex Balaclava - SFI 3.3 Approved

1.5m / 3m "T" Pull Cale

KEY FEATURES

- 3m long cable
- Suitable for use with plumbed-in fire extinguishers, electrical cut off switches & boot or bonnet catches
- Stainless steel for corrosion resistance

1.5m "T" Pull Cable

Part No. SS_TPULL_1.5M

3m "T" Pull Cable

Part No. SS_TPULL_3M

Competition Cornerweight

STR scales are designed to precise quality control standards. These systems are assembled in the UK & are supplied with a 12 month warranty.

STR Scales
Part No. STR_CW1R2(ALU)

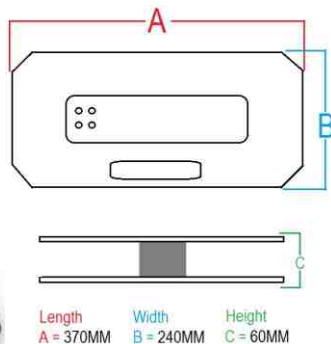

Fig. Pad dimensions

Electronic Corner Weight Scales are an integral part of any professional race team's set up equipment. These are essential to assist in adjustment of weight distribution through ride height, spring/damper stiffness and suspension geometry to ensure maximum grip for your race car.

USE

- Setting up your race car with this system will show you how alterations in geometry, ride height & stiffness affect weight distribution
- Record measurements & once your ideal setup is found, use this system to ensure that your car is race ready every time
- Ensure you comply with min/max weight restrictions for your class
- If your vehicle has been damaged or altered, this is an excellent way of checking how your setup compares with previous readings

KEY FEATURES

- The only race car Electronic Scale Measurement System to be designed & assembled in the UK
- Fully calibrated system (calibrated using certified M1 weights with full traceability to national standards)
- Measures & displays: total weight, cross weight, front axle weight, rear axle weight, RH/LH weight, individual corner weights (% also shown)
- Ultra precise load cells with 0.05% accuracy
- Displays to 4 significant places (e.g. displays weights as '136.1Kg')
- 24-hour system recalibration turn around service here in the UK - no need to send your scale system back to the USA for calibration
- Full spares back up service with same day dispatch
- 4x CNC machined billet aluminium loading pads with anti-slip surface
- Large backlit screen for easy reading, even in direct sunlight
- Control panel housed in an attractive ABS lockable flight line case
- Cordless - supplied with Ni-Cad internal batteries with 12-hour battery life
- Supplied with 230V mains charger/power cable & with flexible connecting pad cables
- Centre of gravity automatic calculation function with asterisk display on the screen to show the exact car centre of gravity point (unique feature)
- Selectable display in either Kgs or lbs
- Max weight: 500Kg per pad, 2000Kg in total
- USB & parallel printer output ports
- Designed to meet strict quality control standards
- 12-month warranty as standard

WARNING - The effectiveness of this system is directly related to the way in which it is installed, used & maintained. The user assumes that risk. No warranty, expressed or implied, is made as to its ability to protect against serious injury or death. See instructions for correct installation. If in doubt, consult the manufacturer. Systems can be returned to the manufacturer for inspection once a year & calibrated every year at a service charge. Contact the manufacturer if the software or hardware is damaged in any way or does not function properly.

Steering Wheels

Aluminium Lightweight Steering Wheel - 13" or 15"

KEY FEATURES

- Ideal for road or motorsport use
- Designed for Oval Racing (Brisca F2/Autograss/Saloon Stock Cars)
- Bolts directly to any of our range of quick release steering hubs
- Outer rim material is designed for optimum grip in all weather conditions
- Lightweight but strong
- Made to strict quality control standards

DESIGN

- 13" or 15" Diameter wheel with 2" dish
- Aluminium centre spars in Black or Silver
- Smooth black foam covered outer grip
- 3 drilled holes for attachment to hub

13" Black Spars
Part No. 13ALU_CK
15" Black Spars

Pro Flat Kit Car Steering Wheel - 10.5", 12" or 13"

KEY FEATURES

- Ideal for road or motorsport use
- Designed for track use (strong & lightweight)
- Shaped grip sections for comfort & accurate driving
- Outer rim cover is suede effect, ideal for optimum grip in all weather conditions
- Flat dish offers maximum space for the driver

DESIGN

- Aluminium anodised black centre
- 6 drilled holes for attachment to most boss kits
- 70mm PCD across the diameter of the holes

10.5" (265mm)
Part No. WHEEL_38-280

12" (300mm)
Part No. WHEEL_38-320

13" (350mm)
Part No. WHEEL_38-350

Installation of these products should be carried out by a qualified professional. Bolts must be torqued by the required amount. Basic safety checks should be performed before every race.

Steering Wheels

Drift Dished Steering Wheel - 13" with 2" or 3" Dish

KEY FEATURES

- Ideal for road or motorsport use
- Designed for racing use (lightweight & strong)
- Outer suede effect rim cover is designed for optimum grip in all weather conditions
- Deep 2" or 3" dish brings the steering closer to the driver
- Coloured tab to show centre position, ideal for use in drift cars / race cars

DESIGN

- High strength design
- Aluminium anodised centre spars
- 6 drilled holes for attachment boss kit
- 70mm PCD across the diameter of the holes

Single Seater Style Steering Wheel - 10"

KEY FEATURES

- Ideal for road or motorsport use
- Designed for circuit racing
- No pre-drilled holes, so can be attached to any hub
- Outer suede effect rim cover is designed for optimum grip in all weather conditions
- Lightweight & strong

DESIGN

- 10" (255mm) diameter wheel with flat dish
- Black anodised centre spars
- Flat bottom to give the driver more room in the cockpit

Single Seater Steering Wheel

Part No. WHEEL_10FFCK

Installation of these products should be carried out by a qualified professional. Bolts must be torqued by the required amount. Basic safety checks should be performed before every race.

Hub & Boss Kits

Quick Release Hub - Hex, Spline or Deluxe Spline

KEY FEATURES

- Ideal for motorsport use
- Acts as a safety device to allow quick escape from the vehicle
- Allows space for the driver to comfortably exit the car where the seat cannot be adjusted
- Fits almost any vehicle, welding to steering column is required
- The hub fits to a standard racing wheel with 3 hole fitment

DESIGN

- Anodised billet aluminium for corrosion resistance
- Hardened to be harder wearing against the steel hex/spline
- ID of spline/hex piece is 3/4" (19mm) to fit most steering columns
- 3 x M8 threaded holes for attachment to wheel
- Ultra Lightweight item, only 245g
- Deluxe style offers one handed operation & a longer, deeper spline with multi point securing system

Spare weldable Hex & Splines are available.

Installation of this product should be carried out by a qualified professional. Welding must be performed to a high standard to avoid safety concerns.

BMW Boss Kit - Suitable for E30, E36 or E46

KEY FEATURES

- Ideal for road or motorsport/drift use
- Allows quick and easy attachment of any 6 hole 70mm PCD steering wheel
- Fits all BMW E30/36/46 models

DESIGN

- Splined section has been machined to match the standard BMW E30/36/46 steering column spline
- Will bolt on to existing steering column, no welding required

BMW E30 Boss Kit
Part No. E30BOSS

BMW E36 Boss Kit
Part No. E36BOSS

BMW E46 Boss Kit
Part No. E46BOSS

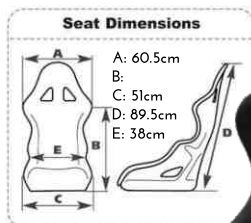

Installation of this product should be carried out by a qualified professional. Ensure attachment is checked before starting your journey.

Race Seats

Roma Race Seat - FIA 8855-1999 Approved

KEY FEATURES

- FIA homologation 8855-1999
- FHR/HANS compatible
- Superior memory foam padding
- Shoulder protection
- Side-mounted (standard holes for fitment to universal brackets)
- 5 harness slots to suit 4, 5 or 6 point harnesses
- Ergonomic design with removable lumbar & leg supports
- Seat weight: 11.5kg

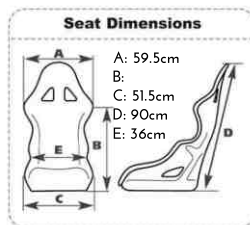

Roma Black
Part No. ROMA_CK

Rapido Race Seat - FIA 8855-1999 Approved

KEY FEATURES

- FIA homologation 8855-1999
- FHR/HANS compatible
- Superior memory foam padding
- One-piece gel coated fibreglass monolithic shell construction
- Shoulder protection
- Side mounted (standard holes for fitment to universal brackets)
- Finished in a choice of black/blue/red in velour/PVC
- 5 harness slots to suit 4, 5 or 6 point harnesses
- Ergonomic design with removable lumbar & leg supports
- Preformed thigh support to keep legs in the optimum driving position

Seat Mounts

110mm Mild Steel Seat Mounts

KEY FEATURES

- Meets FIA requirements
- Universal: will fit to most manufacturer's seats
- Multi drilled giving multiple locations for seat mounting
- Made from mild steel & powder coated in black
- 110mm high & 1720g in weight
- Seat mounting slots centre to centre is 290mm, hole size 9mm, oval size 18mm long by 9mm high

110mm Mild Steel
Part No. SM_MS110

125mm Carbon Steel Seat Mounts

KEY FEATURES

- Meets FIA requirements
- Universal: will fit to most manufacturer's seats
- Multi drilled giving multiple locations for seat mounting
- Made from carbon steel & powder coated in black
- 125mm High x 360mm Long, 54mm wide & 2500g in weight
- Seat mounting slots centre to centre is 290mm, hole size 9mm, oval size 18mm long by 9mm high

125mm Carbon Steel
Part No. SM_CS125

160mm Mild Steel Seat Mounts

KEY FEATURES

- Meets FIA requirements
- Universal: will fit to most manufacturer's seats
- Multi drilled giving multiple locations for seat mounting
- Made from mild steel & powder coated in black
- 160mm high x 360mm Long, 54mm wide
- Seat mounting slots centre to centre is 290mm, hole size 9mm, oval size 18mm long by 9mm high
- 2280g in weight

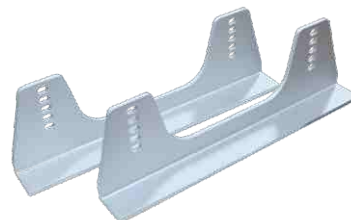

160mm Mild Steel
Part No. SM_MS160

125mm Aluminium Lightweight Seat Mounts

KEY FEATURES

- Meets FIA requirements
- Universal: will fit to most manufacturer's seats
- Multi drilled giving multiple locations for seat mounting
- Made from T5 Grade aluminium
- 125mm high x 360mm Long, 54mm wide
- Seat mounting slots centre to centre is 290mm, hole size 9mm, oval size 18mm long by 9mm high
- 1500g in weight

125mm Aluminium Steel
Part No. SM_ALU125

These seat mounts should be installed by a qualified professional only.

FIA Harnesses

4-Point & 6-Point Harness - FIA Approved

KEY FEATURES

- FIA homologated - get 6 years of use
- 4 or 6-point harness with aircraft quick release style buckle
- Aircraft clip - popular in rally, circuit & drag racing
- Aircraft securing device allows for quick removal of harness in an emergency
- 3" strap width on shoulder & waist straps
- 2" strap width on crutch strap for comfort
- Crutch strap prevents the risk of submarining* (on 5 & 6-point only)
- Steel adjusters
- 2m shoulder straps can be shortened for attachment behind the driver to the roll cage
- Snap hook connections allow for quick installation & removal of harness

	4/6-Point Black Part No. 4/6FC()_CK		4/6-Point Blue Part No. 4/6FC()_BU		4/6-Point Red Part No. 4/6FC()_RD
	4/6-Point Green Part No. 4/6FC()_GN		4/6-Point Purple Part No. 4/6FC()_PP		4/6-Point Pink Part No. 4/6FC()_PK
	4/6-Point Orange Part No. 4/6FC()_OR		4/6-Point Yellow Part No. 4/6FC()_YL		4/6-Point Gold Part No. 4/6FC()_GD
	4/6-Point Silver Part No. 4/6FC()_SL				

WARNING - The effectiveness of these harnesses is directly related to the way in which it is installed, used and maintained. The user assumes that risk. No warranty, expressed or implied, is made as to its ability to protect against serious injury or death. See instructions for correct installation. If in doubt, consult the manufacturer. Harnesses should be returned to the manufacturer for inspection once a year and replaced every two years. Harnesses should be replaced following an accident, or when the webbing or hardware is damaged in any way or does not function properly.

* 'Submarining' can occur during a vehicle collision where the victim is propelled violently under the lap belt. It can result in serious injuries or death. Submarining can occur even in low speed collisions.

** Insert year of expiry between brackets to complete part number

4-Point, 5-Point & 6-Point Lightweight Harness - FIA Approved

KEY FEATURES

- FIA homologated - get 6 years of use
- 4 or 6-point harness with aircraft quick release style buckle
- Aircraft clip - popular in rally, circuit & drag racing
- Aircraft securing device allows for quick removal of harness in an emergency
- 3" strap width on shoulder & waist straps
- 2" strap width on crutch strap for comfort
- Crutch strap prevents the risk of submarining* (on 5 & 6-point only)
- Lightweight aluminium adjusters - easier to adjust straps
- 2m shoulder straps can be shortened for attachment behind the driver to the roll cage
- Snap hook connections allow for quick installation & removal of harness

	4/5/6-Point Alu Black Part No. 4/5/6FC()_CK		4/5/6-Point Alu Blue Part No. 4/5/6FC()_BU		4/5/6-Point Alu Red Part No. 4/5/6FC()_RD

** Insert year of expiry between brackets to complete part number

4-Point & 6-Point Press Button Harness - FIA Approved

KEY FEATURES

- FIA homologated - get 6 years of use
- Press button securing device allows for quick removal of harness in an emergency
- 3" strap width on shoulder & waist straps
- 2" Strap width on crutch strap for comfort
- Crutch strap (on 6-point) prevents the risk of submarining*
- Lightweight aluminium adjusters - easier to adjust straps
- 2m shoulder straps can be shortened for attachment behind the driver to the roll cage
- Snap hook connections allow for quick installation & removal of harness

	4/6-Point Press Button Black Part No. 4/6FP(PRESS/ALU)_CK		4/6-Point Press Button Blue Part No. 4/6FP(PRESS/ALU)_BU
	4/6-Point Press Button Red Part No. 4/6FP(PRESS/ALU)_RD		

* 'Submarining' can occur during a vehicle collision where the victim is propelled violently under the lap belt. It can result in serious injuries or death. Submarining can occur even in low speed collisions.

FIA Harnesses

6-Point 3" to 2" Shoulder Strap Harness - FIA Approved

KEY FEATURES

- FIA homologated - get 6 years of use
- 3" to 2" shoulder straps, ideal for use with a FHR frontal head restraint, HANS device, Simpson Hybrid etc
- Aircraft clip - popular in rally, circuit & drag racing
- Aircraft securing device allows for quick removal of harness in an emergency
- 3" to 2" strap width on shoulder & waist straps
- 2" strap width on crutch strap for comfort
- Crutch strap prevents the risk of submarining*
- Lightweight aluminium adjusters - easier to adjust straps
- 2m shoulder straps can be shortened for attachment behind the driver to the roll cage
- Snap hook connections allow for quick installation & removal of harness

6-Point 3" to 2" Black

Part No. 6FC(FHR/ALU)_CK

6-Point 3" to 2" Blue

Part No. 6FC(FHR/ALU)_BU

6-Point 3" to 2" Single Seater Race Harness - FIA Approved

KEY FEATURES

- FIA homologated - get 6 years of use
- 6-point harness with aircraft quick release style buckle
- Aircraft clip - popular in racing
- Aircraft securing device allows for quick removal of harness in an emergency
- 3" to 2" strap width for frontal head restraint on shoulder & 2" waist straps
- Aluminium adjusters, & 2" strap width on leg straps
- Shoulder straps can be shortened for attachment behind the driver to the roll cage
- Bolt in style connections for security

6-Point Single Seater Black

Part No. 6FC(SS-FHR/ALU)_CK

* 'Submarining' can occur during a vehicle collision where the victim is propelled violently under the lap belt. It can result in serious injuries or death. Submarining can occur even in low speed collisions.

SFI Harnesses

5-Point NASCAR Latch Harness - SFI Approved

KEY FEATURES

- SFI approved (SFI 16.1)
- 5-point harness with NASCAR latch style buckle, popular in oval/shale/autograss track racing
- 3" strap width on shoulder & waist straps
- 2" strap width on crutch strap for comfort
- Crutch strap prevents the risk of submarining*
- Steel adjusters
- Shoulder straps can be shortened for attachment behind the driver to the roll cage
- 2m shoulder straps can be shortened for attachment behind the driver to the roll cage
- Snap hook connections allow for quick installation & removal of harness

5-Point NASCAR Latch with Velcro Race Harness - SFI Approved

KEY FEATURES

- SFI approved (SFI 16.1)
- 5-point harness with NASCAR latch style buckle with Velcro®, excellent additional safety feature
- NASCAR latch - popular in environments where dirt ingress can be an issue
- 3" strap width on shoulder and waist straps
- 2" strap width on crutch strap for comfort
- Crutch strap prevents the risk of submarining*
- Steel adjusters
- 2m shoulder straps can be shortened for attachment behind the driver to the roll cage
- Snap hook connections allow for quick installation & removal of harness

5-Point Velcro Black

Part No. 5SN(VLCR)_CK

* 'Submarining' can occur during a vehicle collision where the victim is propelled violently under the lap belt. It can result in serious injuries or death. Submarining can occur even in low speed collisions.

Harnesses

5-Point Ratchet NASCAR Latch Harness

KEY FEATURES

- Ratchet mechanism on the waist strap ensures a tight & precise fit for the driver
- Shoulder pads are built into the straps to ensure comfort & decrease risk of getting marks & bruises when in contact formulas
- Red safety tab connected to the latch for easy removal of latch
- Shoulder straps clip together to sit comfortable and ensure driver cannot slip through the centre of the belts
- 5-point harness with NASCAR latch style buckle - popular in environments where dirt can be an issue
- Aluminium adjusters with 3" strap width on shoulder & waist straps, 2" strap width on crutch strap for comfort & crutch strap prevents the risk of submarining*
- 2m shoulder straps can be shortened for attachment behind the driver to the roll cage
- Snap hook connections allow for quick installation & removal of harness

	5-Point Ratchet Black Part No. 5XN(RCHT)_CK		5-Point Ratchet Blue Part No. 5XN(RCHT)_BU		5-Point Ratchet Red Part No. 5XN(RCHT)_RD
	5-Point Ratchet Green Part No. 5XN(RCHT)_GN		5-Point Ratchet Purple Part No. 5XN(RCHT)_PP		5-Point Ratchet Pink Part No. 5XN(RCHT)_PK
	5-Point Ratchet Yellow Part No. 5XN(RCHT)_YL				

Ratchet Mechanism for Race Harness

KEY FEATURES

- Ratchet mechanism fitted to the waist strap of a harness ensures a tight & precise fit for the driver
- Specifically engineered with extreme racing conditions in mind
- The ratchet mechanism allows for a faster & tighter adjustment of the lap belt without any assistance from the co-driver or a crew member

Ratchet for Drivers Left
Part No. RCHT_LH

Ratchet for Drivers Right
Part No. RCHT_RH

Square Backing Plate - Meets FIA Requirements

KEY FEATURES

- Ideal for road or motorsport use
- Allows you to connect any harness with snap hooks or bolt-in ends to your vehicle
- 7/16" UNF thread - 60x60x3mm
- Zinc plated for corrosion resistance

Backing Plate
Part No. SQ_BP

50mm Harness Eye Bolt

KEY FEATURES

- Meets FIA requirements
- Ideal for road or motorsport use
- Allows connection to any harness with snap hooks to your vehicle (floorpan, roll cage etc)
- 7/16" UNF thread
- Extra long 50mm thread length
- Zinc plated for corrosion resistance

50mm Eye Bolt
Part No. 50EYE

23mm Harness Eye Bolt

KEY FEATURES

- Meets FIA requirements
- Ideal for road or motorsport use
- Allows connection to any harness with snap hooks to your vehicle (floorpan, roll cage etc)
- 7/16" UNF thread
- 23mm thread length
- Zinc plated for corrosion resistance

23mm Eye Bolt
Part No. 50EYE

2" Bolt in Harness Connection

KEY FEATURES

- Slotted for use with 2" or 3" wide harnesses
- Plated for rust & corrosion resistance
- Ideal for use with tabbed bolt-in mounting locations
- Single bolt mounting for easy installation

Bolt In Connection
Part No. BOLTIN

2" Snap on Harness Connection

KEY FEATURES

- Slotted for use with 2" or 3" wide harnesses
- Locking spring tongue for guaranteed closure
- Plated for rust & corrosion resistance
- Safety wire lockout hole for racing requirements

Snap In Connection
Part No. SNAPHK

Bonnet Pins - Aluminium or Steel

KEY FEATURES

- Slide plate and pins manufactured from very strong, lightweight, high tensile aluminium
- Quick release slide action for securing bonnets, tailgates & boots

Aluminium Black
Part No. BP(ALU)_CK

Aluminium Blue
Part No. BP(ALU)_BU

Aluminium Red
Part No. BP(ALU)_RD

Aluminium Silver
Part No. BP(ALU)_SL

Steel Silver
Part No. BP_SL

Boot Springs

KEY FEATURES

- Material type: stainless steel
- Type: engine mounts competition bonnet boot spring kit
- Size: whole spring unit length: 155.8mm / 6.14 inch
- Professional installation highly recommended

Boot Springs
Part No. BSPR

Tools / Tow Straps

Carburettor Vacuum Synchronizer Balance Engine Diagnostic Kit

KEY FEATURES

- Bank of four mini-gauges
- Lockable valves
- Maximum vacuum: 76cmHg
- Supplied in carry-case
- One of the most comprehensive balancer sets available
- Features a bank of four mini-gauges with lockable valves enabling user to hold vacuum values in use
- Supplied with set of long & short carburettor adaptors for easy access amongst the tubes and wires around the carburettor
- Includes 4x 900mm delivery tubes

Carb Synchronizer
Part No. CARB_SYN

3000Kg / 5000Kg Tow Hook Straps

KEY FEATURES

- Can handle up to 5000/3000kg as required by MSA
- High quality extra heavy duty webbing
- Looks great on any vehicle
- Steel black plated attachment plate
- Can be mounted with a 14mm bolt
- Webbing width: 50mm, Loop diameter: 86mm, Total length: 322mm

 Tow Strap Black 3000Kg Part No. STR_TOW27_CK	 Tow Strap Blue 3000Kg Part No. STR_TOW27_BU	 Tow Strap Orange 3000Kg Part No. STR_TOW27_OR	 Tow Strap Purple 3000Kg Part No. STR_TOW27_PP
 Tow Strap Red 3000Kg Part No. STR_TOW27_RD	 Tow Strap Green 3000Kg Part No. STR_TOW27_GN	 Tow Strap Yellow 3000Kg Part No. STR_TOW27_YL	 Tow Strap Camo 3000Kg Part No. STR_TOW27_CA
 Tow Strap Pink 3000Kg Part No. STR_TOW27_PK	 Tow Strap Grey 3000Kg Part No. STR_TOW27_GY	 Tow Strap Gold 3000Kg Part No. STR_TOW27_GD	
 Tow Strap Black 5000Kg Part No. TOW_CK	 Tow Strap Red 5000Kg Part No. TOW_RD	 Tow Strap Pink 5000Kg Part No. TOW_PK	

Wire Tow Strap - 2300 Kg

KEY FEATURES

- Complies with FIA & MSA* regulations Q19.1.3. - recommended to fit 4 per car (as in BTCC)
- Heavy duty construction grade 303 stainless steel wire, corrosion resistant
- Bright coloured loop
- Construction - 6mm x 19mm stainless steel wire with crimped copper ferrule crimp
- 60mm tow loop with bright red coloured plastic sleeving
- Max load - 2.3 tons, Length - 300mm

Wire Tow Strap
Part No. STEEL_TOW

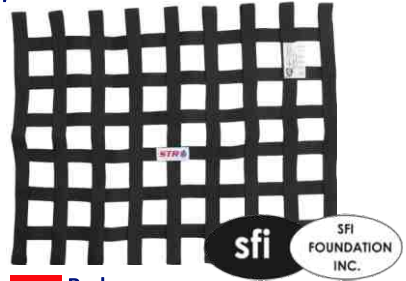

Please note: the wire towing eye is for towing only and must not be used for lifting

Window Nets

Rectangular Window Net - SFI 27.1 Approved

KEY FEATURES

- SFI 27.1 certified
- Standard rectangular shape with 1" net webbing
- Dimensions: 45mm x 55mm
- Hard wearing & durable
- Can be mounted for right hand or left hand drive vehicles

Black
Part No. RTWN_CK

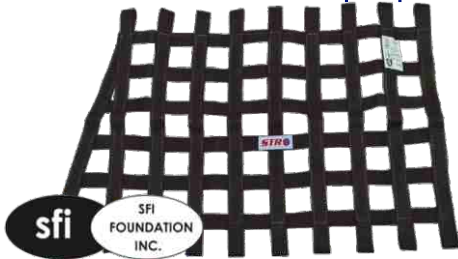

Blue
Part No. RTWN_BU

Red
Part No. RTWN_RD

Trapezoidal Window Net - SFI 27.1 Approved

KEY FEATURES

- SFI 27.1 certified
- Trapezoid shape with 1" net webbing
- Trapezoidal shape runs down the A-pillar of your vehicle
- Dimensions: 46cm x 66cm
- Hard wearing & durable
- Can be mounted to right hand or left hand drive vehicles

Black
Part No. TZNET_CK

Blue
Part No. TZNET_BU

Red
Part No. TZNET_RD

Colour + Quick Release Fitting Kit
Part No. +KIT

Quick Release Fixing Kit

KEY FEATURES

- Strong steel bar with quick release seat belt attachment
- Chrome plated
- Can be mounted above or below the net
- Lightweight in comparison to others on the market

Quick Release Fitting Kit
Part No. WNFIX_1

Spring Loaded Fixing Kit

KEY FEATURES

- Strong steel bar with spring loaded tube eliminates latch release & provides easy entry & exit
- Kit 1 complete with top spring tube & 3/4" flat aluminium bar for bottom of net
- Kit 2 complete with top spring tube & additional tube for bottom of net

Spring Loaded Fitting Kit 1
Part No. WNFIX_2

Spring Loaded Fitting Kit 2
Part No. WNFIX_3
